G206

**1 Identification of substance**

• **Product details**

• **Trade name:** IONE GRAIN 20X48

• **Manufacturer/Supplier:**  
RHI Refractories America  
600 Grant Street  
Pittsburgh, PA 15219

Phone: (412) 562-6200

• **Information department:** MSDS Technical Information: (412) 562-6437

• **Emergency information:**  
CHEMTREC 24 HOUR EMERGENCY PHONE NUMBER: 1-800-424-9300.

**2 Composition/Data on components**

• **Chemical characterization**

• **Description:**  
Mixture of the substances listed below with nonhazardous additions.

**Components:**

1302-93-8 alumina silicate	60-100 %
14464-46-1 crystalline silica (cristobalite)	10-20 %
7631-86-9 silicon dioxide, chemically prepared	5-10 %

**3 Hazards identification**

• **Hazard description:** Toxic

• **Medical conditions aggravated by exposure to the product:**  
Asthma, chronic lung disease, and skin irritation.

• **Carcinogenicity Information:**  
Crystalline silica is listed by IARC as a Group 1 Carcinogen "sufficient evidence of carcinogenicity in humans", and is listed by NTP as K, "Known To Be A Human Carcinogen".

• **Information pertaining to particular dangers for man and environment:**  
May cause cancer by inhalation.  
Danger of serious damage to health by prolonged exposure.

PRODUCT CONTAINS CRYSTALLINE SILICA, an IARC and NTP listed cancer agent. Prolonged or repeated inhalation of dust from products containing crystalline silica can cause silicosis or cancer.

• **NFPA ratings (scale 0-4)**

Health = 0  
Fire = 0  
Reactivity = 0

(Contd. on page 2)

**MATERIAL SAFETY DATA SHEET**

Harbison-Walker, NARCO, InterTec, VRD-Americas and VRD-Canada are part of the RHI Refractories family of companies

**8 Exposure controls and personal protection**

Components with limit values that require monitoring at the workplace:

I4464-46-1 crystalline silica (Cristobalite)  
ACGIH TLV: 0.05\*\* mg/m<sup>3</sup>  
\*\*Respirable fraction  
NIOSH REL: 0.05\* mg/m<sup>3</sup>  
Ca; \*Respirable dust  
OSHA PEL: 15(%SiO<sub>2</sub>+2)\*;5(%SiO<sub>2</sub>+2)\*\* mg/m<sup>3</sup>  
\*total dust; \*\*respirable dust

- **Personal protective equipment:**
- **General protective and hygienic measures:**  
Keep away from foodstuffs, beverages and feed.  
Wash hands before breaks and at the end of work.  
Store protective clothing separately.
- **Breathing equipment:**

NIOSH approved respirators should be used if dust is present.  
A respiratory protection program should be implemented if exposures exceed OSHA PELs.

- **Protection of hands:**

Protective gloves recommended

- **Eye protection:** Safety glasses with side shields recommended

**9 Physical and chemical properties**

- **Form:** Solid
- **Color:** According to product specification
- **Odor:** No specific odor.
- **Change in condition**
- **Melting point/Melting range:** Undetermined.
- **Boiling point/Boiling range:** Undetermined.
- **Flash point:** Not applicable.
- **Ignition temperature:** 370.0 ° C
- **Auto igniting:** Product is not selfigniting.
- **Danger of explosion:**  
Product does not present an explosion hazard.
- **Density:** Not determined.

**15 Regulations**

**SARA 313 TOXIC CHEMICALS**

No material listed in the components in Section 2 of this MSDS is on the SARA 313 list.

**SARA 302 EXTREMELY HAZARDOUS SUBSTANCES**

No material listed in the components in Section 2 of this MSDS is on the SARA 302 list.

- **TSCA (Toxic Substances Control Act)**  
This substance or all the ingredients of this product are on the Chemical Substances Inventory of the Toxic Substances Control Act (TSCA Inventory). The presence on this list does not require any legal reporting.
- **WHMIS Classification**  
Class D - Division 2 - Sub Division A  
Untested mixture containing a very toxic material  
Class D - Division 2 - Sub Division B  
Untested mixture containing a toxic material  
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.
- **Classification according to EU-guidelines**
- **Hazard symbols:** Toxic
- **Hazard-determining components of labeling:**  
crystalline silica (cristobalite)
- **Risk phrases:**  
May cause cancer by inhalation.  
Danger of serious damage to health by prolonged exposure.
- **Safety phrases:**  
When using do not eat or drink.  
After contact with skin, wash immediately with plenty of soap and water  
Wear suitable protective clothing and gloves.  
In case of accident or if you feel unwell, seek medical advice immediately.
- **Special labeling of certain preparations:**  
PRODUCT CONTAINS CRYSTALLINE SILICA, an IARC and NTP listed cancer agent. Prolonged or repeated inhalation of dust from products containing crystalline silica can cause silicosis or cancer.
- **National regulations:**
- **The following ingredients are known in the state of California to be a cancer risk (Proposition 65):**  
14464-46-1 crystalline silica (cristobalite)
